PROPOSAL	
How does this Project further INPS' mission?	
Why is the Project needed?	
What specific objectives will the Project achieve?	
How will INPS funds be used?	
Who benefits from the Project? (Include how many and how they benefit.)	
Describe any public outreach and education components of the Project	
What other organizations support this Project and how are they involved?	
What financial resources have been committed to the Project from other sources, if any?	
Please prepare a Budget Sheet with line items showing (a) labor, material, and program costs; (b) sources and amounts of funds already raised; and (c) total cost of the project.	(You may leave this field blank and upload a Budget Sheet file instead.) FILE URL:
PROJECTS INVOLVING PLANTING NATIVES	
If the Project seeks to establish native plants, what specific steps will be taken to achieve the objectives (e.g., site preparation, planting, initial care, who will do the work)?	
Describe soils, light, and moisture conditions at the Project site	
What plant species will be used? NOTE: INPS will not fund projects that utilize species nonnative to Indiana.	(You may leave this field blank and upload a Species List instead.) FILE URL:
Describe the long-term plan to maintain the Project planting	
PROJECTS SEEKING TO CONTROL INVASIVE PLANTS	
If the Project seeks to control invasive plants, what specific steps will be taken to achieve the objectives (e.g., method(s) of control, who will do the work)?	
Describe the long-term plan to maintain the Project site invasive-free
