

FLORATHON 2025

How Many Native Plant Species Will We Find?

Florathon 2025 is a team competition benefitting the Indiana Native Plant Society's Shine Foundation Matching Grant in support of the INPS mission.

Our team name is _____.

Our team of citizen scientists will visit natural areas in Indiana during a 24-hour period of our choosing between Tuesday, April 1, and Saturday, May 31, 2025. The object, to identify as many native plant species in flower as we can.

We invite you to sponsor our team with a donation.

Proceeds are earmarked for the Shine Foundation Matching Grant which funds a Program Facilitator to lead a citizen science conservation project for rare Indiana native plants and to further engage INPS members in furthering our mission: To promote the appreciation, preservation, scientific study, and use of plants native to Indiana and to teach people about their beauty, diversity, and importance to our environment.

To sponsor our team, please complete the pledge form below.

You may pledge an amount per species found (.10, .25, .50, \$1) OR a lump sum honoring our efforts—it's up to you. A donation of \$35 or more entitles you to membership in the Indiana Native Plant Society (first-time members only). Donations are tax-deductible as allowed by law.

You may pay a team member directly with a check payable to Indiana Native Plant Society. Or, you may pay online at www.indiananativeplants.org; the DONATE button appears on the INPS home page under the Welcome message.

Thank you for supporting our team and INPS!

INPS Florathon 2025 Pledge Form for Team _____
